EVERYONE NEEDS EMULIN

Prevail Emulin is a high-demand product because everybody needs it to properly regulate sugar and carbohydrates. Emulin is a vitamin-like formulation that our bodies need daily. The impact results in less inflammation, insulin regulation, and weight loss. Inflammation is the root cause of every illness.

"Let thy body heal itself."

Emulin was discovered by Dr. Joseph Ahrens, Two Time Nobel Prize Nominee, and is exclusive to Valentus. Safe for all ages and all stages of life. Reserve yours today at www.emulinovation.com/carita.

DIZZINESS

My Dad is 92 years old and has suffered with "dizzy spells" since he was just a boy, but is otherwise remarkably healthy considering his advanced age. On day one of taking an Emulin C in the morning and another one in the evening, his dizzy spells have stopped. He's been on Emulin C for just about 3 weeks now and has not had one episode of dizziness since he began taking Emulin. He was suffering with dizziness every day at some point until now. Dad is so excited and so am I. He told me nothing has ever worked for him until now. ~Jamie D

NEUROPATHY

MI have to tell y'all something..... I have had neuropathy in my feet for at least 10 years due to being a diabetic. I am/was taking the max dose of gabapentin and 3 months ago added the max dose of amitriptyline. I received my Emulin c yesterday. I took 3 last night at bed time and took 3 this morning and for the first time in AT LEAST 10 years my feet don't burn or feel tingly. I am absolutely amazed!!!! ~Kim T.

ARTHRITIS

Just thought you might like to know that, because of severe arthritis in my hands, I have not been able to shuffle my deck of cards when I play canasta with my sister. This seems like a small thing really, but its just another issue that makes me sad and robs me of my independance. Well, until today that is! Yep, thats right, Thanks to Prevail Emulin, today, I shuffled my own dang cards! Wahoo! One more small victory towards better health for me! Onwards and upwards! ~Careylea S.

DIABETES TYPE 2, NEUROPATHY, PAIN

I was diagnosed with Diabetes type 2 a few months ago and was having extreme numbness and pain in my legs and feet, especially numbness in toes. The pain was bad and hurt just to walk. At the end of week 1 taking Emulin, I started to notice a big difference in my pain and numbness going away. I am currently pain free in my legs and feet. Emulin C has really helped me out and I highly recommend it to anyone else who has diabetes to give it a try. ~Ron S.

AUTISM

My son is 22 and is under the autism spectrum. He has been taking emulin since January 2017. I knew EMULIN was helping him but I didnt realize how much until we ran out of product this Spring. His behavior went sideways. He was aggressive, not as communicative, resistant to care and difficult to be around. Within 4 days of being back on the emulin he started telling us he was feeling better, he was sleeping better and his communication improved. The change was evident to his caregivers and I was getting text messages saying "I dont know what you did but your boy is back". One of his main caregivers said "dont ever run out of emulin again". Laurie P.

MULTIPLE MEDICAL ISSUES RESOLVED & LOST WEIGHT

I started taking Emulin and I was shocked and amazed to watch my feet and legs in 2 days start to shrink due to inflammation guess what, I do have ankles. Emulin has been better for me then the prednisone with out the weight gain , in fact I am loosing weight! ~Karen M.

PERI MENOPAUSE

Just a quick note to say for those that suffer from painful periods in peri menopause like me, I've teamed up Emulin and 24/7 and I literally feel no pain. Before I'd be good for nothing and doubled over in pain. On day 1, my symptoms got better. Dream team of products.~Louise C.

TMJ

Second day on my Emulin M and no pain and I suffer terrible with my TMJ especially under stress and I'm under a lot of that at the moment so happy. ~Sara-Leigh M.

HEADACHES

I've been a chronic sufferer of daily persistent headaches with migraines for 5 years and 2 months. Immediately after starting Emulin, my headaches are gone. I am actually amazed and will continue to take Emulin. ~Nicola J.
